

1921

Aug Monday 18th.

This day begins with very light
 S.W. winds raise a school of small
 sperm whales early this morning
 as soon as the masthead were raised
 close to the ship. Toward the three
 boats first then the wind all died
 down to a calm so the boats could
 not get on to the whales & finally had
 to return to the ship with no whale.
 Lat 33.05 N. Long 52.08 W. West

Tues 16th

This day begins & ends with very
 moderate winds from the S.W. West
 when steering along to the west North west
 we see steamers, also picked up a large
 log and got a good lot of fish from it.
 Lat 33.09 N. Long 52.31 W. West

Wed 17th

This day begins with very light
 variable winds when cruising see
 nothing. Lat 33.16 N. Long 52.36 W.

Thurs 18th

This day we have had fine breezes
 for whaling from the S.W. but
 have seen nothing at sundown shorten
 sail. Lat 33.08 N. Long 53.05 W.

Fri 19th

This day begins & ends with fine weather
 Lat 33.00 when cruising sighted a school off the
 Long 53.09 weather began whaling it proved to be
 the same we had taken a whale along
 side.

Aug 20th 1921

This day begins with moderate breezes from
 the S.W. West when came in sight early
 this morning raised a school of small
 sperm whales toward three boats the whales
 acted very queer after a short while
 the starboard boat struck a small
 whale and brought him to the ship.
 The other boats have on but could
 not get fast. The came boats were down
 chasing also. Latter part cut the whale
 inboard. Also another schooner came
 in sight called it the Margraeth.
 Lat 32.52 N. Long 53.46 W.

Sunday 21st. This day begins with breezes from the
 S.W. West 2 whales in sight at 9.30 Am
 raised a school of sperm whales toward
 the three boats. When the starboard struck
 a whale after a short while the three
 came out & lost the whale. The boats
 chased on after the whale all day
 the came boat struck a whale in
 the same school on their boat got
 cut & died and lost the whale.
 Lat 33.02 N. Long 54.06 W.

Monday

Lat 33.02 This day we are having good weather
 see the came whaling
 Lat 33.02 Long 54.45 W.
 Graber saw whales struck & the came out
