

1904

Voyage in Steam Whaler Belvedere

Tuesday April 12th

Come in with fine weather and gentle breeze from S.W. and steaming course $27\frac{1}{2}^{\circ}$ through thin young ice all day and no sign of any heavy ice. We all think it unusual that we see no heavy ice as far north.

Lat $62-05$ Long $173-07$ Wednesday April 13th

Come in with fine weather and gentle breeze from S.W. At 2 P.M. was at West Cape of St Lawrence Island bearing $27\frac{1}{2}^{\circ}$ 12 miles. Something very unusual to be at this point this season of the year and from St John's to this point we have seen nothing but thin young ice.

Friday April 15th

Anchored at St Lawrence Island

Saturday April 16thSaw a Bow Head $27\frac{1}{2}^{\circ}$ of the village at St LawrenceSunday April 17th

Got a Bow Head $27\frac{1}{2}^{\circ}$ of St Lawrence Village about 10 miles off 2,906 lbs Bone

Tuesday April 19th

Anchored at Indian Point. Saw a number of Whales $27\frac{1}{2}^{\circ}$ of St Lawrence Island but never saw the same one but once they went under the ice.

1904

George F. Tilton charter

Saturday May 7th

Tied up the the blue at Diomedes

Tuesday May 17th

Anchored at St Lawrence Island

Friday May 20

Called at the South Head of St Lawrence Bay and got some trade

Thursday June 2nd

Come in fog and moderate breeze from S.W. At 7 P.M. Indian Point 18 miles off and ice all in shore of us

Tuesday June 7th

Five of our men took the dingie and started for the shore at East Cape but we caught them and brought them to the ship

Sunday June 12th

Got our Water at Diomedes

Tuesday June 14th

At 12-10 A.M. lost our Propeller coming through the ice. And at 3.00 P.M. Anchored at Stone City and sent our Bone home 2,906 pound in 26 bundles by the Steamer Victoria

Tuesday June 28th

Got under way and sailed from Stone City at 4-30 P.M.
