

Ship Liverpool February 12th /52

Remarks Friday 12.

Bent by last I have had weather
of light constant squalls and heavy
squalls to winds all round the
compass and more gail from
S.E. to S.W. during 12 hours then
heavy squalls from W.W. hail and
rain but still I am getting a
long heavy well no reason
to complain this day strong
winds from S.W. clear

N.W. heavy squalls as usual
just to clear away all sail

Nothing new nor strange

My Lat to day is 44.10
Long 50.36

Remarks Saturday 14th 1852

For the last 24 hours have had
the wind from from N.W. and
wind talks thick and raining
at 5 P.M. heavy rain with squalls
at 6 P.M. wind hauled to S.W.
made sail lower W.W. by N.W.

Lat 44.17 Long —

Boat N.W. Lat 44.50 Long 50.30

Remarks on board this day

February 16th

Have had fine weather from S.W.
to S.E. Course N.W. by W. all sail
out this day sent up for top gail
mast fine and pleasant
weather steering for the island
of Masafusa this day Lat 36.10

Long 50.50
There is gain of fast and
is now getting a long glare
but still doing all we can
I expect to make the point
to morning of the lower stands

Monday 17th Light winds from
S. Course N.W. at 5 in the
morning saw the shore of
Masafusa at 12 spoke stop
Lewis Coffin of navigation 39 m
6.00 of alcohol sent to 6 P.M. then
ported steering N.W. by W.
Light winds from W.S.W.
the shore bearing E.N.E.
