

Remarks on board Monday

This day fresh gales from W with a heavy swell on
lying on a black under
the red top sails (kale
kale mackerel, but gales
of wind for the last 3 days
have W blowing to S. Under
Calos reef top sails. The
sea quite moderate in hopes
to quit a slant of wind soon
for the wind is changing fast
and I am quitting a sail lay
slow the weather has been
cold for the last 4 or 5 days. The
change in the weather is quite
sudden. I have got my bottle up
and fine air to it.
My men are all swelled up
with the cold weather. It is no
strange to remark

My Latitude this day
is 42.15
and Longitude 172.45
Cape Weston & Swift on
Board ship Liverpool

Remarks on board Thursday
May 6th

This day fresh gales from WNW
Ship on a black under
the top sails. Kale, Kale, Kale
gales from the last 10 days
have a cold, rugged weather
cold and disagreeable

Lat 46.25 Long 174.40

May 4th Day 1852 Lat 42.15 Long 172.45

Saturday 7. Strong gales
from W lying to under close
reef main top sail
Ship a sea state the B. B. B.

Later more moderate
tack in the B. B. Commence
reparing at 3 P.M. finish
But put her over by works
Lighter Wigs from E. W. E.
Under the mainmast
Course W. G. W.

Lat 48.12

Remarks on board

Thursday 13th of May
A cold, rough weather. I have been
for the last 10 days
maritime big gales of wind
from the W. the water time
with hail and snow cold
disagreeable weather
have had for the last 50
hours a heavy heavy gale from
S.W. to W.W. lying under
close reef main top sail for
of the pine under main poles
Now I have the wind light
from the S.W. with a gale
of rain blowing to W.W.
In hopes to quit the wind
from E.

Lat 48.20 Long 176.00
