

2
June
Whales
got one
34 lbs

Monday the 9th this Day Light Wind from
S.E. and pleasant weather at 2 clock P.M.
San School 10 Whales Lard the Boats got
one at 4 clock P.M. got the whale
George Dine So we got the carting gear
at ready for the next Day So ends this Day
Lat 37-20 Long 73-50

June Tuesday the 10th this first Part of Day
Calm the latter Part Very Light
Wind from S.E. and pleasant weather
carting the whale in at 11 clock
A.M. all thrown at 5 clock P.M.
commenced to Boil So ends this Day
Lat 37-14 Long 73-56

June Wednesday the 11th the first Part of this Day
Calm the latter Part Light Wind from
S.E. and Squally we are lying
So ends this Day the Captain is Sick
Lat 37-2 Long 73-55

June Thursday the 12th the first Part of this
Day Calm the latter Part Light Wind
from S.W. and Breeze weather
So ends this Day all thrown by line
Lat 37-27 Long 74-08

June Friday the 13th all this Day Calm Staring
the oil Down So ends this Day Several
Dails in sight four of the Men came
to the Boat Lat 37-12 Long 73-55
and said that the water was up to the Hecall
place So we start the Pumps and Pump
2 hours before the first rain So ends this
Day Lat 37-12 Long 73-55

June Saturday the 14th this Day began with Light Wind
from S.E. and Squally and life increasing at 10 clock
A.M. we reefed the fore top sail at 11 A.M.
tack in the fore sail still the wind life increasing
and large Sea coming at Noon Ship at Sea
that left the West Boat up of the Lizards and
Jeton iron gave way So came near Larding
the West Boat So we took every thing out the
Boats So at 1 clock P.M. a large Sea Broke in
on Port quarter and over the Starboard Boat in
on top the horse and snape every thing from
the Deck Larding the Spel Boxes with all the Speds
and two copper Pumps Boring knives and other
small articles at 4 clock P.M. close reefed
top sail and reefed the Main Stand sail and still
Cape the Main at Pumps Leaking 1600 hours
So ends this Day Lat 00 Long 00

June Sunday the 15th all this first Part of Day
Strong Wind from N.E. and large Sea
at the middle of Day the Sun came out
and bit and the wind began to slip Down
at Noon the Sea Strake the Star Boat
and Broke the Dairy So we lost the Star
Boat and all the birds and everything
that was lost the Star Dairs So we
threw them but it was impossible
to get any thing So we kept the Main at Pumps
all night and Day Leaking 15 to 1600 hours
So ends this Day Lat 36-34 Long 73-08
