

29

We fastened to 20 large Whales
 It was dreadful to relate
 At first she stove the Capt Boat
 And then she stove the plates

30

We took our boats upon the cranes
 The Whale was still in sight
 We could not dare to let him go
 We did not think it right
 We thought 3^d if we could get that whale
 We would see our lives much sooner
 But had no boats to fight him with
 We tried him with the schooner
