Sept the 10th 34

first part a gale of Wind from the W & N
and heavy rain to the W & E and on
shore with in 30 the part were predicted
at 10 till near 12.15 the latter part
like wind from the W & N
and pleasant at daylight with all rain
has in to the S at 2.00 rain with
hard driving W & N 10 miles
distance in 1 hour 15 minutes with
many ships so on, they say

remains on
Board pay day
September
the 14

first part moderate breeze from the W & N
and a thick fog. Near to the W & N all next next
see Blackfish Head but could not pass at
sunset. Weather sail for the night wind. The
first moderate latter part strong wind from
the W & N and rain at day till mid all
morning sail back to the W at Mer the
San Juan W 100 miles. Distance is end.

first part Laying up on the island
it was not shorter with as great width and
rather point moderate means from the E. N. E.
and pleasant at daylight near all with better
an Report takes swimming for about
a ship in the water, but by the 136.40

Remains an open
Pier Day Sept the 21

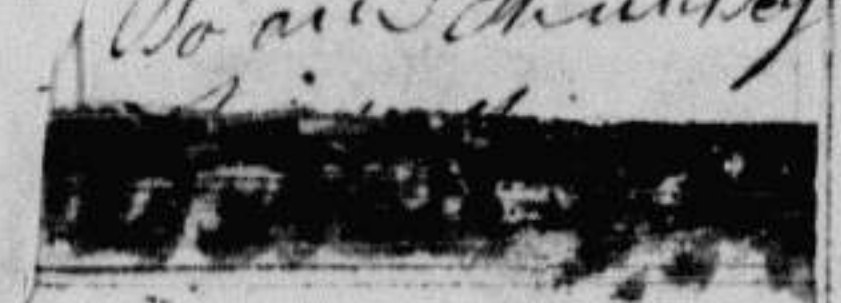

first part in a late breeze from W. E. in
pleasant weather here in June for the last at 4
P.M. spoke the heroine off Fairhaven with
1000 B.B. Lys sail at sunset started sail
at mid night for the last in a late latter part
the moon at sunrise saw our boat
and I felt we had the last in kind of
a chain. But Cook was first seen
at eleven when in to the ship were,

Bour & Bousby
Sept. the 20

first strong breezes from the S and S.W. have
blown to the S.W. in Son. I could see
topails at sunset. In the night from the
white sea in the S.W. at night
in a sail strong breezes and blowing
from the S.W. in the night
saw one Wharfedale and got caught
at 1000 yds. this day
