

Log of the Bark Globe of N Bedford Thos Handy Master

Hour	Day	Force of the Wind	State of the Weather	Hour	Remarks on board Sunday May 14 th 1854
2	SE	Strong	overcast	SE	P.M. made sail and carried on her so hard
4	SE	Gale		Ely	that we could not free the pump until
6			Squally		we shortened sail the ship does not
8		Flash		East	hook over 200 strokes per day unless a
10	SE		Rainy		storm or carried on to hard. At M maid all
12		Gale			sail but studding sails and by 12 we were
2				SE	shortened sail to topsails.
4	SE	Strong	Cloudy	Ely	The are constant by lossy making and
6		Breeze			taking in sail repairing pump-holes
8			Rainy		and pumping ship.
10		Moderate			The last 24 hour we pumped 15,000
12		Gale	Squally	Ely	strokes or thereabouts

Lat by Ob 36° 01' S L by 95° 00' West

Remarks on board Monday May 15th

2	SE	Moderate	Rainy	Ely	P.M. the pump a waging about
4		West gale	Cloudy		a bout on quarter of the time
6					A.M. we have set all sail that we
8	SE		cloudy	Ely	have spars for except main sail
10		Strong			
12					Broke out a barrel of beef and a
2	SE		with a	Ely	barrel of pork.
4					also stowed up the things between
6		West			few drops Ely it decks in the fore hold. and mended
8					main topgallant studding sail and at
10		Breeze	of rain		work on the waist boat gripe
12	SE			Ely	

Lat by Ob 35° 54' S Lon by Obs 91° 50' West

Remarks on board Tuesday May 16th

2	SE	Fresh breeze	Cloudy	Ely	P.M. broke out the main hold for
4		Wye	Rain squally		water having first got pieces of rigging
6					to the lash sail to lash up the casks
8		Strong breeze	Cloudy	Ely	as fast as we took them up we also had
10					to keep spars amongst the casks between decks
12	SE	with			to keep them from pecking away
2		squalls of	Squally	Ely	P.M. repaired the galley and fitted a
4		the force of			mat lashing for it also taughtened up
6	South	a Moderate			the fore stoppers that was on the
8		gale of wind			stranded fore shrouds
10			Cloudy		That one reef topsail squall therefore now
12	SE		Squally	Ely	

Lat by Ob 36° 01' S L by 89° 40' West at noon

South Pacific Ocean Passage from the French Rocks

Hour	Day	Force of the Wind	State of the Weather	Hour	Remarks on board Wednesday May 17 th 1854
2	SE	Strong breeze	Cloudy	Ely	P.M. very little doing
4	SE				The ship leaks in moderate weather
6	SE	Moderate		Ely	like this about 200 strokes per
8			Broken		day as nig as we can tell it is difficult
10		Breeze			to tell how much she leaks as there
12			Clouds	Ely	is a considerable water in the hold
2	South				that is choked in so that it cannot
4		Gentle			get to the pump well
6		Breeze	Broken	Ely	
8	South	Light			P.M. saw a fin back
10		air	Clouds		
12	SE			Ely	

Lat by Ob 35° 55' South L by Ob 88° 00' West

Remarks on board Thursday May 18th

2	SE	Light	Cloudy	Ely	P.M. made a new shank piece for
4		West air	Threatning	Ely	got the ground tackle handy for
6			Appearance		anchoring &c
8		Fresh breeze			
10	SE				A.M. halled down the fore topmast studding sail
12		Strong breeze	cloudy	Ely	and repaired the tack and halyard blocks and set
2					it a gain. put a new mast coat forward or
4	SE	Moderate			to the fore mast refastened the jacks on the
6					fore yard put a new block into the maintop
8		Gale			gallant that pendant. cleaned the gurry up
10			Cloudy		around the pumps &c &c
12	SE			Ely	The sea remarkably smooth for the wind.

Lat by Ob 36° 08' South Lon by Ob 88° 15' West

Remarks on board Friday May 19th

2	SE	Fresh	Cloudy	Ely	P.M. Split the main topgallant studding
4		Gale			sail and handed it. At 8 on the main topsail
6	SE				the gale was near the yard and the yard
8				Ely	came down by the run. at 9 put one reef in
10		Fresh Gale	Rainy		it and hoisted it again. also double reefed the
12		West	Rainy		fore topsail
2				Ely	P.M. at 2 turned the reef out of the fore topsail
4		Fresh	Cloudy		and set it and the fore topmast studding sail
6	SE				also set the maintopgallant sail
8			Broken		Saw a fin back also struck a porpoise and
10		Breeze		Ely	did not save him
12	SE		Clouds
