Lat by Obs 39.39.14

Thursday July 14th Pleasant with a fine breeze from the
N^E steering to the N^E with all
the topsails clewed down all hands
engaged in setting up rigging at 6 A.M.
cleared up deck and got underway
part strong breeze from the N^E which and
single reefed topgall and courses heading to
the N^E at 7 P.M. it was the last
that we did see of Henry Raymond
breathing we had five or six men down there
with him but they could not do him any
good so he died with the will of God
after an illness of four weeks and he
was a horible sight to it was supposed
that he was poisoned his head and face
was all black out and full of holes
to the bone we committed his body to
the deep at ten minutes past 9 P.M.
then braced forward and stood along
on the wind watches engaged in various
duties saw nothing Lat 41.39.14

of New Bedford Humpback Master 1853¹⁷

Sunday July 15th Commences with light variable airs and calms
ship under all sail nothing seen watches
engaged in breaking out for dried apples and
sunday the things latter part strong breeze from
different quarters with rain showers saw a Bay
steering to the N^E watches engaged in cutting
the Ticks at 10 P.M. raised a school of whales
supposed them to be Sperm Whales we lowered
the Boats for them but lost the run of them
No Obs

Saturday July 16th Commences with pleasant weather and a
fine breeze at 2 A.M. came on board
and got dinner braced forward the yards
and stood to the Southward under all sail
at 4¹/₂ past 2 A.M. raised the whales again
and lowered for them they proved to be
square headed Grampus watches engaged in
various duties middle and latter part pleasant
with a fine breeze from the N^E ship bearing
to the S^W at 10 P.M. raised a Bay
steering to the S^E watches engaged in
