

Cruising

Sunday Dec 5th 1880
Flowing a Gale from the W
nothing of note occurred

Monday 6th

Wind let go and died out -
Calin broke out - Heat &
Molasses about 8-30 & the
got a breeze from the N
saw a Right Whale - lowered
heart & bow Boats both darted
at him and the whale
went to windward the
wind increasing fast and
rugged Chatter part blowing
and raining - rose new Whig
stay sail shirts

Tuesday 7th

Flowing heavy and - squalls
of hail vessel lumpy - easy
saw a Right Whale close
alongside nothing more
of note

Wednesday 8th

Moderated some - made
some sail vessel heading
into the S all this day
Lat - 45-45-5
Lon 81-37

Thursday 9th

With strong breezes from
the S with frequent squalls
of rain Chatter part with
light air from the South

Cruising

Friday Dec 10th 1880
With strong breezes from
the S & Chatter part -
hailed gradually into the
Westward saw the Rk &
A Howland take two sperm
Whales saw the school
go to windward - just at
sunset - saw a Right Whale
Lat 46-37
Lon 81-37

Saturday 11th
