

See the ship put forward to the side and
and every thing is dashed solid so the shall not
be rolling around on deck the wind has started
strong called all hand at 3:00 got breakfast
started the work see the sail close reefed main
top sail the sea is coming down some

Thursday March 7th Tying out
I kept the Bore this which will not smoke
much but for he is full the Coopper to work
on his back pushed forward the sail and set
a spanker killed three pigs the sea has come down
a good deal blowing in puff very strong handed
up main mizen and mizzen aback see the main
top sail finished Tying out cleared up put
the things below washed of raised a sail

Friday March 8th
Made sail doubled reefed the sail a man at
the wheel see the wheel on the quarter raised
them on deck no one left heading close to the
wind at 3:00 made the main sail and jib more
sail on her own ship back up out of top
wind did not wash or converged steering down
a bit in light land on board had a fine
view got in to blue water over more nothing
to be seen a dead calm Reading N 2 1/2

Saturday March 9th
Finished steering down see a sword fish headed

Japan Sea. cruising

round the island steering N 2 1/2 a little more
down at 1:00 saw a lot of fish on the water
down to what it had been for the week past
battered the stone squared in washed of took down
a new boat from overhead put it for lowering the
water is sandy to see it left that a stand then
the name of it is Japan

Sunday March 10th
The main land in sight the is about all sail
on board up steering N 2 1/2 took in fore and
main top sail and jib jib several a ship
in sight strong wind the coast is lined with
black fir in to the passage all hands keeping
a sharp lookout the Capt and mate on deck
ship the water bad land on the lee bow
some the water the ship got past through the
water got into on deck have got in to the
strait had a head wind now and the current
against us do not gain any thing hardly
shall see some the sails in sight see a great

Monday March 11th
Tacking ship killed by fog the day smoke
long back quite sensible the wind had changed
there got all the timber of the island standing
up the coast of the island (and) the wind had
come down from the mountain is cold you can
