A writer who was speaking of Gittens the Assoc of the President - alluded to the letter written by Wendell Phillips in the case of Abbott - said with all his mysterious mistakes History will recognize his many ~~plans~~ prophetic efforts in the direction of humanity and progress made by this renowned and eloquent Reformer and thank God for the manly heroic, unpopular stand he so often has taken content to be misunderstood (as the writer has heard him say) for the sake of the truth, and the utterance of his honest convictions. Phillips will live long, after the type of selfish Politicians which Governor Loring represents shall be forgotten Yea even by those who now sing Hosannas to the former class. And of Phillips "Cry Out - Crucify him!! Crucify him!!! Away with him!!! Away with him!!!"

Coliseum

This evening I went to see the Coliseum by moonlight. It is indeed the Monarch the Majesty of all ruins - there is nothing like it - All the association of the place, too, give it the most impressive character. When you enter within this stupendous circle of Ruins, walls, and arches, and grand terraces ^{or ~~monsters~~} rising one above another, you stand upon the arena of the old gladiatorial combats and Christian Martyrdoms and as you lift your eyes to the vast amphitheatre, you meet in imagination, the eyes of a hundred thousands Romans assembled to witness the bloody spectacles. What a multitude and mighty array of human beings, and how little do we know in modern times of great assemblies.

We went up, under the
the Conduct of a guide, upon the walls,
and terraces, or embankments, which supported
the ranges of seats - The seats have long since
disappeared - What thronging life was here
then! When Rome sat down to its barbarous en-
tertainments. What greetings, what hurrying
footsteps up the staircases of the 80 ^{or} 81 arches of
entrance - power, wealth and beauty - Now here
and now, as we picked our way carefully
through decayed passages - or cautiously ascended
the steps or stood by the lonely walls - there
no no sound but the roll of a distant carriage
or the Bell from a convent on some near hill
We passed round on the outside and the moon
light shone through a hundred lonely arches

Fountain & Gelicks

Among the beautiful things in Rome are the Fountains & Obelisks. As to these Egyptian Obelisks of polished granite, pointing up to the sky from almost every square in Rome - with the mysterious hand writing on their sides, what can be more striking - The antiquities of Rome are young ~~beside them~~ by their side. Some of them were built by Sesostris the 3rd Rameses between three and four thousand years ago. So beautifully polished and
