

Ship... while talking Another Personage step up. A Yankee looking  
sort of Personage... very clean looking - Straw hat, and underman  
The sun with... a piece of blue muslin - Said he had been to  
Valparaiso - at a time when a large Carnage Factory burned down  
and other buildings - Said that there was not much doing! there in  
wondered why we should leave the State for uncertainties, This is  
all significant - - When very busy Talking, and the Conversation was  
becoming very interesting - We saw the Capt of the "Mye" coming on board  
we met him at the gangway - and had some talk all some-  
dumb which, I could not make out that he was "perfectly carried  
away with his visit" among the Angels, or that he expressed himself  
as admiring the qualities of our Capt. more than necessary - -  
Wishing him Lots of Oil, we again step a into the boat, accompanied  
by the Mate. And again pulled on board of our vessel - As we passed  
under the Stern - could see the Ladies waiting to receive us - and soon  
after we was on board, giving an account of our eventful Trip  
across the Ocean from one ship to the other - But all things have  
their end - The Mate of the Mye took Tea along with us - and  
also, producing, and dividing a small quantity of Shells of W. G. beads  
for which, we donated him with Books - a few Papers - and 3 bottles  
of Rum. He took his leave, with the good wishes of all - Our  
Ship was now square yards, and going at the rate of 5 miles  
per hour - was fast leaving the Mye - - And after dipping the Colors  
the square away, to pick up her boats - and in our hour she was  
out of sight, to windward - So we left her to pursue her usual oc-  
cupations while we - went our way toward Cape Horn - The night  
was pleasant but not much said to another or capt. the visit  
from the Strangers, whom we had met for the first time and might  
never see again - !! ----- Charley crew for his Papa, George,  
and Uncle Toby, whom we left for the ship - and was overjoyed to  
see us return - again - - I took him in my arms and wept  
him to sleep - - After which we soon returned well satisfied with  
our days adventures - - The Capt. advised the Whaling Staffer not  
to take 5 or 6 women passengers on any vessel he might be in here after  
So was this day - of all days - one of the most eventful
