A set of Exchange is sometimes composed of two sometimes  
 of three four and five separate drafts similar in form to  
 the above if it were certain that no delay or accident would  
 happen to the ~~above~~ to it in passing from the drawer to the  
 drawee, one bill would be as good as more, here you will under-  
 stand that the object of drawing two or more of the same  
 tenor and date is that some one of the set may reach its  
 place of destination even though the others should be miscarried  
 or lost the domestic and inland transactions where the dangers  
 of the sea are not incurred precaution is not often resorted to
