That Lawrence A. Duart on board of
 the sch. Adelia Chase to be landed on one
 of the Cape de Verde Isles, a very bad man
 to have on board of any ship. He has drawn a
 sheath knife three times since being on board
 of this ship with intent to kill and twice on
 the second mate.
 Note, took what clothing he had that was good

Understood to have been hired for Jamaica
 because he was a bad man. A stolen
 away - drew a knife on one of the
 crew before he had been on board 2 days
 On last post with 2000 on him, drew a
 knife on 2nd mate
