

The 8th
Day 1829

In the morning off the 8 fine weather
about 10 AM light but heavy
swell all hand employed in what ever way can
find to do but that the sea is quite
on the wind freshened and about 5 pm we
had a stiff breeze brought 1/2 barrell off the
and latched the down for to set in patches
at 6 pm saw a ship off the lee side 10 or 12
off and we supposed it to be 1 off the ship
we saw the other day but we do not see

The 9th
Day of the
Month

In the morning off the 9 about 1/2 past 8 AM
pass calm and the garter boat found off and
lashed the wind was blowing a gale from
the West and very squally the morning off
cast under short reef main and mizen
and fore sail sent down the main topgallant
yard and took in the ellig top sail and off
at 11 AM we at Seville the wind came too
aboard and then back to the West and by 11 AM
it was fine and pleasant weather but at 1
PM cross swell a watch below and the
employed at 5 pm saw 2 ships along way off
the lee beam but we do not know whether
they were

The 10th
Day 1829

In the morning off the 10th stormy gale
from the West and squalls of rain
did not dark about daylight saw the 2 ships
about 1/2 past 10 AM and clear about 1
line of white sails and the rest of
at 11 AM saw a ship at 2 pm
from the West at 3 pm saw the 4 ships
well and find him other than
The topsails fore and aft at 4 PM
staysail at 5 pm the sea and squalls

The 11th Day
1st Month 1829

In the morning off the 11 the gentle
breeze from the West but showers of rain very
smooth. One watch below and the West end
set of fore topmast staysail turned down the
boats saw a ship ahead supposed it to be one
our comrades at 8 pm the wind on topmast
aged so gently and the sea was so smooth and
at eleven o'clock illuminated the bathless
ocean and our bank under all sail gliding
smoothly along to the Eastern part of the
sphere too the place off her rendezvous which
I suppose will see in a few weeks to 1/2

The 12th
Day of Sep

In the morning off the 12 fine wind from the
West but squalls of rain the rain lasted till
12 AM and then cleared fine weather 1/2 past 1
at 1 PM the topsails and fore masted and like
to throw the fore deck but scatch by the
on and held for all 3 ships in sight at 6 pm
from a light continued fine all day at 7 pm
the above about 1/2 past 10 AM was visible
off the ships but could not be seen around the
ground and our cat got distance 175.10

The 13th
Day of

In the morning of the 13 Sunday fine weather
wind about West and light got out the 2
of the Lark and saw 10 miles off at 4
light squall off rain at 8 pm very cloudy
but the wind continued light remarks
kable smooth sea

The 14th
Day of

In morning of the 14 fine weather
at West and a fine breeze all hand employed
In Ships Duty 2 hands left see about
Gompress at 4 the wind hauled too the
beezed and became squally Coors at 1
1 point variation to the right which
