My dear friend

Dear friend

Do not let me not they say
remember me when you may
And when your thoughts stray

The thanks of her by so good and true
And then she says to me
And that's my dear friend
Make us know she is thinking of her by

And where the heart for prayer does sigh
And her thoughts from the world are lifted high
Still her by is remembered by her in prayer
And she knows that the Saviour will for her care
And I know the thought of her turns to my heart
No memory pictures the father who gave me birth
And you beg to gaze on a mother's face
And I hope her loving heart
