Dear Captain Bonney
 Cash

I have thought of you often
 since I heard you were going in the same ship with
 I hope to meet you though I am going from your
 Profession I have confidence in your integrity that you try
 to keep a clear conscience and of course toward God and man
 Remember you are going among wicked men & you will
 be exposed to many temptations & trials which you can nothing
 by which here are your friends & friends who are ready to
 sympathize with you but when you find yourself after all
 rather sad Oh then I hope you will feel the want of a faithful friend
 who will advise or comfort you then I trust you will look to some
 who has promised to protect and bless all those who put their trust
 in him I hope you will try to comfort & comfort for the
 thinks much of you I feel as if I should be comforted & I
 hope you will be kind to him for he is a small boy to learn
 his lesson I hope he will not let the any bad friends
 should be so do by & influence him to do right
 But I have of the good that is accomplished on ship board
 through the influence of our pure person everywhere at all
 times to do your duty to the Officers & sailors the
 children to their wishes & I doubt not but that you will
 prosper I shall think of you often because you will
 be more company for I might the others being men &
 strangers I think Mr. Bonney will be kind to I might
 he says he shall have enough to set & share & share
 I hope he will do as he says I hope you
 will all enjoy good health & have a prosperous voyage & return
 & your safety to your parents who will feel very anxious for
 you

Yours affectionately
