

I remember the night it was stormy and wet
 And almost dark the dark hours
 The rain & the wind did beat and howl
 And the mariners were all dead

I remember it was done in a darkness
 And close to a heavy rain
 When the wild winds came around the mariners
 And they sought for the mariners grave

I remember how slowly the waves had
 And how the sea was so high
 And they sought for the mariners grave
 And gazed on the mariners grave

I remember the night
 When the birds were all dead
 And the sea was so high
 And they sought for the mariners grave

I remember the night
 When the birds were all dead
 And the sea was so high
 And they sought for the mariners grave
