

June. 1847

Sunday the 6th a light breeze
saw whales and lowered
without success spoke
the S. Greenland some
nothing so far.

Upon the 7th a strong breeze
chased whales without
success the S. Greenland
did the same.

Tues the 8th a strong breeze
foggy with some rain
under double reef top
sails saw no whales.

Weds the 9th a strong breeze
and foggy saw no
whales these 24 hours.

Thurs the 10th a light breeze
and some thick lowered
4 boats for a hump
back but without success
1 sail in sight so it goes.

Frie the 11th a light breeze
steering by the wine
saw a right whale
this morning lowered
4 boats the S.B. struck
we got him and took him
to the ship about 11 P.M.
and began to cut him
in and finished about 9 P.M.

at 8 began to sail 1 sail in sight
Lat 57° 26' North.

S.B.

June. 1847

Sat the 12th or cowfish day a light breeze
steering by the wine employed
in boiling some fog with
rain the first part saw some
fin backs the last part more
fine 2 sail in sight saw
right whale on our weather
beam 4 miles off did not
lower Lat 56° 58' North.

Sunday the 13th a good breeze the
first part some rain
saw whales and lowered
without success the last
part good weather saw
1 sail lowered for whales
again but without success
Lat 56° 51' N.

Upon the 14th strong breeze with some
fog saw a ship this morn-
ing cutting at 8. We saw
whales lowered 3 boats for
them the S. Boat struck
but the iron line we
finished boiling and
cooled down at 10 P.M.
the last part more clear
saw whales and lowered but
without success so goes.
