

June. 1847

Thurs the 24th a light breeze saw
whales and lowered 2 for
them but without suc-
cess at 4 P. M. lowered 3
boats and the L. Boat
struck we got him and
took him to the ship
about 11 P. M.

L. B.

Frid the 25th a strong breeze began
to cut took in his tops
and throat and then
had to lash down to
rupee to cut 2 sail in
sight 1 was boiling

Sat the 26th a light breeze cooled
down and finished
cutting at 4 P. M.
last part started the
works and broke out
in the after hole saw
a whale going quick did
not lower

Sunday the 27th a gale and a heavy
sea we had to cool down at 10
P. M. rained for the most part
of the day last part it
began to moderate at
9 P. M. started the works
again no whales in sight
these 9 and 20 hours -

June. 1847

Mon the 28th a strong breeze with some
rain and a heavy sea we
employed in boiling and
steering down in the after hole
saw nothing these 22 hours

Tues the 29th a strong breeze and
rough employed in boiling
and setting up shooks 2 sail
in sight but no whales

Wednes the 30th a strong breeze employ-
ed in boiling and steering
down last part a gale
we was obliged to cool down
2 sail in sight so goes.
