Today our cooper (Hugh Fletcher) was taken sick we don't know what is the matter but Capt. Pease thinks it is the reaction from drinking as he is a great drinker when ashore, however we hope he will be better soon.

Tues July 28th 18th 4.

Commences with light variable wind

I have today just recovered from seasickness, and can travel the decks like an old tar eat hash like another. Capt. Pease thinks we have got the best crew he ever saw aboard a ship, especially the steward & cook there is no discount on either of them.
