

Friday Oct 8th 1869

Came in with a gale of wind from the N.W. and some fine rain - Ship by the wind to the S.W. with all prudent sail cut boiling. Bk Addison in sight - at 23 P.M. finished boiling and wore ship heading E. by S. with nothing but lower topsails cut. Lat at merid 41.06 Long by Chron. 48.07

Saturday Oct 9th 1869

Came in with a gale of wind from the N. and thick weather. Ship by the wind to the E. by S. under easy sail - all hands busy stowing oil in the main hold - Stowed 75 Bbls at the last whale yielding that amount. One sail in sight suppose it to be the Addison. No Obs.

Sunday Oct 10th 1869

Came in with a gale of wind from the N. and cloudy weather. Ship by the wind under lower maintopsail - nothing in sight all day. Ship on different tack. Lat 41.26 Long 46.54

Monday Oct 11th 1869

Came in with a gale from the S. N.E. and cloudy weather. Ship all the A.M. steering off S. by W. per compass - in the P.M. by the wind to the S. E. wind hauling gradually to the E. - saw one sail & whaler steering to the W. nothing more in sight - poor seeing all day - watch breaking out for provision &c. Lat at merid 41.19 Long by Chron. 47.17

Tuesday Oct 12th 1869

Came in with strong breezes from the N.E. and cloudy weather. Ship by the wind to the S. and E. - saw Morris in sight. In the P.M. steering W. by N. per compass at 4 shot the Com. Morris with 65 Bbls since last we saw her. One other whaler in sight that we call the Addison - at 5 raised a school of Sperm Whales, going quick to the W. by N. - mated with the R. C. M. and chased at dusk and after the C. M. boats gave up the whales and gone on board, the harboured boat struck a small whale.

Saw 1 Whales - mated with Com. Morris
Shot One - 8 Bbls - to S. Boat
