

Barque Octavia Passage from Capeverdes Isls
to the Tristan Islands

Thursday These 24 hours Light Breezes from S by E at 7.02.46
September 21 the S course of S by E to end the day Long 23.21.40

Friday These 24 hours Light Breezes from
September 22 S by E course S by W at 8.00.00 equally
with thunder & lightning & rain
to end this day with fine weather Lat 6.31.00
Long 23.06.30

Saturday These 24 hours Light Breezes from S by E
September 23 by from every point of the compass
course the same took gallant sails!
the S by E main sail to end day with
the same Lat 5.35.40

Sunday These 24 hours Light Breezes from all points
September 24 of the compass course S by E & S to end the day Lat 5.20.50
Long 22.41.00

Monday These 24 hours Light Breezes from S by E
September 25 by from every point of the compass
S by E course from all point S to end
this day with the same but our
regular course is S by W when we can
get a wind that will let us go that
course but when we shall get it I can
t tell the last 24 hours our difference
of Lat was 10 miles by the 10 day
& this is what I call hard sailing
how long before we shall get a coast
the line I cant tell but never
as long as the wind prevails from
all points of the compass as they
do now
S to end this day with troubled Lat 4.10.50
winds
