

here at Cape Fairview Don get the well on its own
with 900000 ft. then cut shale & sandstone there
West calm weather at daylight 1000 employees at drilling
overalls

May 26th Sunday convene Jopoe at 11 P.M. further fasting days
when all hands continued sitting down at 11 o'clock

along side the rail at daylight commencing cutting
at 9 finished our Wharfedale & West end in 1848

at last. Commercial cutting out in the market
the week first in said rain through the night
at daylight commenced. Steaming began at nine
o'clock by 12.30 P.M. Direct the Main Race and
all hands went down stairs to

May 30th
Thursday commenced weather falling
weather at 8 A.M. more whales killed

at last killed and sent me the skull as 12 rebeck
Mediam small billings Tot 44. 42
Long

double the separation at night made all air
at it all commenced to the down the back in night
Tat
Tone

Whether to these come on board at the east river below
Newark & East West just at that place I am not
to understand have been or are not 45-47

of the bubble as one of the plates was a diameter of 40.75
I cut here the Root and break it into 2.5

June 4th
Irisian commenced that weather. Don't get any
that got fast to the whale when that letter
at the whale cut it dont we wish them up to the
whale make a show of it and the whale finished

Wednesday commences fresh sales at 4 P.M. and a regular
 market at daylight called all hands began to stir down
 having great egg and pig market to August to June
 the stream ends marketing a little late
