

Lying at anchor at Honolulu

Tuesday November 27

1017.21 370 and Monday December 26th 1855

As I made out to eat something for dinner today the first I have eaten for a week I thought I would try to write from the strength of it but my strength is less than my courage. Last Sunday I had a hard day and Monday Morning felt miserable thought death close to my heels sent for the Doctor he came a left me some pills for an appetite which is all I wanted for I have no pain except that caused by weakness and now I think I shall gain fast I can hardly crawl round my Mate commenced setting up shacks and finished it when he was taken with the "Duckoo" and the Blacksmith and Wm. Bode with him so the rest of the shacks are waiting for small men Mr. Oaken and Pierce are on duty but Carpenter and Mayhew are not. They have painted ship outside and filled and brought of the 80 casks of water twice. Today the Landward watch are on liberty and are to be off in the morning its time to do their work. The Mary of Edgartown put back for repairs with 5 ft of water in her hold. Sailed for home a few days ago.

Wednesday November 28th

My watch have been on shore but I have not been
able to go with them though I am gaining slowly.
The watch repaired the jib and fitted the bolstay
Three Policemen have searched our ship for arms
and did not find them. A great firing of
artillery on shore today because of a treaty of commercial
importance had been signed by our country I believe.

Thursday November 29th

The Captain watch on liberty. I concluded to go to gain strength and think I found a little. Called on Mrs. Lamont and had a good time with her little girl baby which is one year old. Capt. Lamont thinks of going back of some ship. Poor fellow! I pity him. Ships come in and go out everyday. It will soon be our turn. What hold.

Sent home four letters.

Part of the

1922 * continued Friday November 30th 1922

The Starboard watch on duty and the Starboard repairing
Sailors I have spent the day on shore but do not get my strength
Took off a load of wood The Schooner Restless returned
sailing Our boat is on board of her Sent another letter
Johnston

1853 The Frances Lee gave with the ^{man} yesterday December 1st 1855

The Landarbeiters are liberty and as I am not strong enough to work I have been with them. Took a course up the Rhine valley which gave me an excellent appetite for ordinar. It is said that the people of Rhile are in great fear of the Boientines overflowing the place with melted snow. The greatest excitement exists

1084 1902 Sunday December 2nd

The Steamer waited in Albany and as many of the men
as wanted to go to Meeting, I went and had a fine time
attended the Methodist Meeting twice. Henry Douglas
Cooper of the China came on board and took dinner
with me.

Monday, December 17th

All hands on board today. Tack off to raft of meat
880 lbs of bread and about 800 lbs of beans.
I have been letting up shacks but find it hard
work. My strength is not with me yet.
Thought 15 lbs of Beef with the rest.

1880

With hands in sweat. Took up a raft of water. Made
250 lbs about all in weight. Repairing sails

The Ship Eliza Mason ran into the Bark Mount
Barnett and carried away the persons Mammie & the

...at her down to the water level. The white man
...back of her and the vessel of the same species

My dear friend, I have since learned that both ships are very much

at first various the 1st. But direct light for tentatively no one as

13. The first of the islands that the train crosses on
the coast is the one that is the most fertile while the

Vermon is a perfect wreck. The ^{most} ^{unpleasant} ^{arrangement} of all
sides waiting for a steamer to take her in all hands.
