On Board ship Brutus
 Sunday December 8th 1854
 all this day had light airs from
 all points of the compass at 4 o'clock
 left under bound off to the westward
 Under all sail where we shall put
 up what God only knows
 one thing grieves me sore my
 old shipmate Spencer is very
 sick I do not think he can recover

C.P. Lat 26 55 South

Saturday December 9 1854
 first part of this day had
 the wind to the north of driving all
 we can to get to the off Ingle
 got on board at a little of every
 thing

Con Palmer

Wednesday December 13 1854
 At this date I am quite well satisfied
 with my ship I have got a long
 time far without any trouble My old
 shipmate gets so better He lives
 in great misery he has had nothing
 pass through him for 10 days or
 more

Lat 11 12 North
 Long 161 49 West

Now Con Palmer

December 20 Spencer has a prospect of
 getting through his trouble he has been about
 45 days without having any thing pass through
 him he was in more misery than any person
 I ever saw

Now
