Thursday July 9<sup>th</sup>

Lat  
Long W

Br 29 7/8

72 The fore part of this day had fresh breezes from N.W. with light rain working up to the windward Resolution in sight and several icebergs at 11 A.M. lying aback heading off the land and opening to make the straits, nothing but a frosted patch of field ice from the Cape of Resolution into the S.W. waiting for fair wind land about 5 to 10 miles into the Northward & Westward so ends the day lying aback on opposite tack

Friday July 10<sup>th</sup>

Started into the ice & came out

Br 29 7/8

73 Light breezes & pleasant weather from N.W. saw Button Island ice very thick & heavy in the straits run into the straits about 15 miles and found the ice setting into the E. of ice came out into clear water late of ice from all points at 6 P.M. Cape Resolution bearing N by W Dist. 10 miles so ends this day flying off & on the ice
