

Monday Oct 5th

This day comes in more moderate

& pleasant from NW at 7 am westward

from the light ship. Took a Pilot at 6.30 am

up off bearing for Round Hill light

Employed Bunting Bore finished at 8.30

am and got the cables up and strainers off

the Bore and came to anchor at Currituck

grounds at 9 am and took a tug and came

in at wharf at 10 am so ends this dark and

glumy voyage. Thanks God.
