

Ther.

FRI. MAR. 31, 1893

Wea.

The day has been calm
until 4 PM breeze from
South been under steam
27 hours + 10 minutes
made 188 miles at 10 PM
steaming at 4-10 PM
made such course N by N
think compass is about
4° out to South have not
made my course good
by that amount - smooth
sea and under steam
put up Crowns meat
various other jobs going
on. O.C.

End of March 1893

Ther.

SAT. APRIL 1, 1893

Wea.

The day has been light
breeze from West. Pleasant
weather ship on the ground
heading to N.W. played up
steam pipe hole for engine
as he could fix his boiler
he saying it was leaking
and filling his boiler
Glanders flowed down
boiler last night. Cleaned
it out - refilled it - again
day. at 6 PM made
breeze with rain
