

Ther.

FRI. JULY 7, 1893

Wea.

fresh breeze from S.E.
 Thick most of the day
 Last night at 9-50 P.M.
 Came to ice thick fog log
 until this morning
 kept away to N. along the
 ice spoke Writon telling me
 he was 20 miles NW of
 Point Hope I think from
 South of Capt. Thompson
 saw 6 sailing ships.
 saw the land to North

Ther.

SAT. JULY 8, 1893

Wea.

forenoon breeze from
 South came thick saw
 4 sail spoke "Reindeer"
 at Nine am took in
 square sails got a clean
 track to East under steam
 + fore + aft sails at 12 m
 id up saw land run
 to East until 2 P.M. Capt
 Thompson bore NW I called
 it 20 miles come back
 to West along the ice
 until I think Cape ^{Thompson}
 bears north come in thick
 fog spoke James Allen
 went on board a little ship
 anchored at 4 P.M. 22 fathoms
 water at 7 P.M. still thick

Lat: 67. 54 N.
