THURS. OCT. 19, 1893

Wea.

This day has been a
moderate gale from NW
with rainy weather weather
Ship on opposite tack blown
away lower fore topsail
and old reef of a sail
last night. Steamed to port
until 3 A.M. wind got
so strong could not
make headway enough to
make it pay so set storm
sails, and headed to westward
at 8 P.M. wore ship to N.W.
at sun set wind
moderated some have
repaired another old
topsail in the cabin to
replace the one carried away

FRI. OCT. 20, 1893

Wea.

This day commences
with a breeze from about
N.W. cloudy wet weather
at six A.M. got steam
and steamed to S.W.
N.E. + S.W. wind gradually
increasing so could not
make much headway
hove to at 12 M on Port
tack heading to S.W. saw
one sail to windward
at sun set fresh gale
from about N.E. some
rain repaired old lower
topsail and bent it in
place of the one we blew
away yesterday.
