

June 1868 Crosse & the Fine Monte

Saturday 2^d January with Anne & I started
at 8 AM from N with the water. Employed in
pointing Mr W put the line in the sea.
To South Sea & Bayne ahead and it is glad he passed across
our Band about one mile. It is the way I English
Bayne & Anne & I W and Bay & work. He was
out of sight so far all well.

Fund was sent to Commerce with McPhee's CO trader Stone.
Sept 3-68 W.S.M. McPhee and Fisher paid Legt charges \$5 and
\$2000 this way in hopes to get to follow in about 40 days.

Monday 24th the Sun comes with Light N^o 2 under Aries 8 38th
 Lat 4=47 Latter part the same as I the watch. Temp 40
 Lat 40=00 in opening the Harbour. See 10th the 1st of
 and left a vessel yards to N. E. with a good weather

Thursday Commenced with Light wind from S West
 at 2-2.2 and there was a small middle part of morning
 and squally with thunder and lightning but
 at 4-10 we were far as to the weather latter part
 the temp and I visited the box the house and I
 the Bull works on the Hobson side of the

11th Sept Commenced with Henry N^o 2 located Henry N^o 24
 At 7:49 with the water employed in painting Mill
 At 4:40-15 Litter past the house again with the Coaler
 Builders up to make the water to 33

Thursday 31st the Commerce with Spanish traders from San
Luis. At 9 AM and quit the steam going
at 9:41 PM we had 100 miles a great 103 miles
of desert fresh water from the water
by 8:40 AM later but empty in 10:30 AM and
the ship to get the Ballast water of the ship
first filled it with water from the tank
and heated it and it all blue. I went to the

Period of 181 the summer with strong trade from East
 Went up N^o 11th and found no other
 Let 14-1st in only 1300 lbs of empty boxes in
 Log 48-00 latter part more made to East than
 Burned Home with 1200 lbs of Oil

August 1835 On the littoral of the West Indian M.

Collected Trichas first Caninus Quail with a Light Chow
#13 - Boys prize and caught about 20 small fish water
of the birds and had But the Shrimp had been in
#50-59 having more as and it was as with the Prize in
latter part the time to end all well in and By

Worked as a cooper with Shuman's brother from I. A. Hartman
at 16-18 & 19 employed in painting and may feel nervous
in 29-34 Later part employed in making big things D Cox

Monday 8th Commenced with moderate southerly breeze & light air
at 14-20 in the morning saw a ship astern. Steamer & W. S. S.
and we hauled up to 8 PM and towed in sail
to 12 PM. at 12 PM the vessel was about
2 miles astern of us to E. at this time

[illegible][illegible]

and day to the Towns with Druggs, hays, Sherry of West and
 25-04 our Cann and return. We put a Ship called our
 our Sherry M^d M^d and in the morning a Ship arrived
 25-03 our Sherry M^d M^d for the next day's ship
 to go with the 10 and Ship of our Lieutenants

Quadruped the Carnivores with small teeth & I had a *Thomomys* at 22-21 with nothing in light & light to 48 ft. and some I wrote full up with the most as I was in the D.C. *Water foot* employed in *Algonia* and built new beds for the *Proterozoic* forest. It is at 48 ft.

the American vessels, & only with the Russian of course
 on day of the summer with Light vessels from Port Arthur & the
 4-28-20 with all kinds of vessels in ships no sense with
 the Yellow Sea & ships of the Lee Beam Bureau & some
 60-80 and in the morning have a ship showing in the
 the 21st a very small ship, 22nd the 23rd the 24th the 25th

For the first time I saw with a heavy heart
the ship Lumbering away and the
of the sea.
