

The hell is my father I was a hunter - London Whittington
 The will be done and made to a secret even place
 But I have no refuge from whaling and danger
 There is no home now a country remains here for me
 I am where is the mother that watch I over my life
 And where is the house friend I know them all
 The my and make long a bond by pleasures
 Why did it last on a fast fading treasure
 America is my country the that I have forsaken
 But I am in a distant Ocean I am there
 And night for friends that I never see more
 When I had fate with them never replace me
 On the land of the free where no friends can share
 I have been a wild roving boy of long years
 Spending my money in still more and more
 I have been but a boy by my money in there
 And never to play the will more your money
 Will you give me will you give me will you give me
 I want to be a hunter where I of times did stay
 I asked them to hunt me but there was no more
 You can have no better can have me have pay
 For me have as plenty such custom as you are used
 I want to be a hunter where I have to report
 I told them my money had begun to grow short
 In there they did laugh at me and of me make up
 Because my money had begun to grow short he kept
 Come all you young fellows by your money up on
 For with out that one can't get you me turned out
 When I had no money then my friend had had my
 The father money I will be - if it buy I will
