This medicine ought to be in every Physician's Chest & every Family its great variety of uses its instant operation renders it of great value in suam attacks Its influence is felt to the ends of the fingers and toes almost as soon as swallowed  
 It relieves Cramp Dizziness palpitation of the heart Cholera Morbus Asiatic Cholera faintings, winds in the stomach and bowels producing Cholera Asthma is relieved by breathing the vapor of Ether It may be used for spinal Cholera by Injection mixed with the common laxative injection I have never found any remedy so specifically to combat both mind and body in Delirium tremens or the horrors after an emetic  
 It is useful also in Dyspepsia combined with Indigestion of Bile three or four times a day It may be applied externally for Head Ache tooth Ache Rheumatism Gout-rupture the Dose is one Tea Spoon full in Sugar and Water every half hour until relief ensues  
 The Water and Sugar should be mixed and when the patient is ready to receive the Dose the Ether should be added and swallowed immediately as it evaporates very rapidly  
 Great Care should be taken to keep this article from a lamp as it takes fire as readily as Gunpowder

Dear Cousin  
 I cannot wait any longer for you to answer my letter and I think if I write it will make you answer

Dear Cousin  
 you are you glad I have waited so long for you to answer my letter and I think if I write it will make you answer  
 I am sorry that I cannot go with you as I have not much to do now school is out you must leave your studies long enough if I was to answer my letter you must when your father is here that you must not be said that I had come to see
