Sperm Whale song
 Come all ye bold seamen that are
 bound round Cape Horn

Come all ye bold seamen that
 are cruising for sperm

We are now round Cape Horn boys
 we are on our pursue

We are all of one mind our
 endeavors to do

Our capt'n has told us and he
 will prove true

There's plenty of sperm whale
 the Coast of Peru

Our boats crew are chosen our signal all planned
 our boat are well fitted our mastheads well
 The 1st whale we did see being late in the ^{morn} day
 Our cap came on deck & these words he did say
 Lower away from your mastheads go down

to your hammocks and quietly be
 For I think in the morn'g shall be under our lee

Early next morning just as the sun rose
 The man from the masthead sings out there she blows

"Where away" cries our capt'n and spring a life line
 Three points on our lee bow & haul that side of

Lower away from your mastheads & be of good
 Put your lines in your boat see your boat
 warp all clear
