Dear Sir

You will please send me 500 lb two years Spungum very smooth and handsome and oblige yours

Merrimack

about 500 lb 2 years very handsome Spungum

Providence Nov 13. 1848

My dear John

Excuse

On my return I find that you have valued me one for One hundred dollars & 75c

As regards receiving advances on Caskets & Stoves It is not according to agreement! As I mentioned the arrangement it was this! That you were to place the stoves in hands from Effingham and allow me 15% for selling and 5% often provided I furnished any to Dealers as an allowance to them, and you were to keep an assortment of your Stoves here for sale, and when sold to be as Carter

I have already paid your Draft to the amount of \$250 and my sales amount to \$154 55/100 net. Therefore I am in advance to you of about One hundred dollars. Before accepting this draft I wish to have a right understanding with you in regard to advances.

It is for your benefit entirely to have the Stoves here ready for delivery so that there should be no delay in furnishing them. If you do not understand the arrangement the same as I have stated, you will please write me to that effect, and what you did understand at the time. Moreover it is not customary to make advances for more than two thirds the amount of the consignment. You must not take offense in my not accepting your draft under the present circumstances, without a right understanding upon the subject.

I am ready at all times to locate the sales as soon as I make them. And you will always know where I make sales by ordering another stove. All the stoves I have sold has been by me to my customers but as I said before I am ready
