

to look my sales. I notice that you
mistake my last order. I ordered two
No 4 Calumets. I have a No 5 now on hand

If you please you will send a No 4
instead of No 5. It is not my wish to
keep more than one of each size on
hand as it is easy to replace it in a
day or two, without you think otherwise

If you should visit Providence I
think it would be for our mutual
benefit, as there seems to be a misun-
derstanding, and then we can talk
the matter over and have a right
understanding upon this subject

Yours as ever

I received this day
from Packet the Jan I purchased of you
say 40 lbs in number some of them
merchandise full and others half out
I will call the inspector on the two
for him to decide how much it will
take to fill it up, presuming that it
will be satisfactory to you.

I request you return I bought the
two to have it examined by you before
shipping the same, but observe that
you have not taken out any of the
brings to ascertain if it was much
and fully full or not

You will recollect that I expressly
stated that the lbs must be full - not
of water but of tobacco in good order

Your two favors
this day rec'd and contents noted
as regards the etc you sent me
the number of stores agrees with
my list but prices differ, sometimes
your services make 20% discount
and at others you make 15%

As the year was so near its close,
when I made out my accounts
current is the reason of my not
replying to your favors, as then
you would have the whole statement
forthwith I have been about a
good deal of late

I should like to know if you have
altered your rate of discount or
whether you give some 20% & others
15% Comd
