

columns and may compare very favorably with any ever introduced into this market from the Pacific. Of the proportion of head matter & other interesting particulars I have to refer you to Capt. Hornsby who is now in your City. As regards the price nothing definite is yet fixed but we have strong hopes and would have every reason to believe that the two qualities sent & most of us, taken in connection with the fine quality & condition of the oil will command an holding for the present at 1.05 cts. I should be happy to see you this way and in the same time am most respectfully yours etc etc
