Fasting	Copper and Iron
Chain	$1\frac{1}{2}$ x $1\frac{5}{16}$ in
Anchors	Good
Decks	11
Rate	A-2 1/2

- Remarks -

In the winter of 1866 & repaired. Had a new stern - New Quarter Deck - Several timbers put into the Bottom and several planks put in the Bottom. Work refastened top & wales with iron nails going through & through nailing on each end, caulked all over Bottom cemented. Sheathed & coppered the vessel appears to be in order for one or two voyages. In May 1870 had Bottom & wales top Calked and put in order. Rigging, Spars & Sails all in good order.

Schooner Washington Freeman of Fairhaven 460
