still ahead blowing South East saw one
of Grampies and a bark in sight to the
ward of us about 2 miles of us
morning squally and rain with the
blowing fair for us wind west south
East of South East saw 2 schools of
and a sail to windward of us
Clear of fine and pleasant with
morning pleasant and fine with light
steering Southward by East in the gulf
saw some grampies and two sails
one to the windward one to the leeward of us
morning fair and fine with light
from the westward steering South with
a bark in the forenoon raised a school
black fish and covered the boats but
not faster to them
