

Excursion in Arcad of the Baque Hector

May 21. 1846. Tuesday. morning fog and pleasant
strong breeze from the North. Steaming on
the river.

Friday 25. Thursday morning fair and pleasant with light breeze from the NE steering NW. E

January 31st Friday morning fair and pleasant with light
breezes from the NW. Slewing on the main
~~the~~ we are busily employed sheeking out and stowing
down the grain but I'm not finished

Young 27 Saturday morning fair and pleasant with
light breeze from the S.W. Steaming out
the wind at 1 o'clock we raised a school
of sperm whales and the whist boat and
Larkins boat got one apiece and the star
and boat got part and the other three
we got the whale along side and cut the
in

May 28 Sunday morning fair and pleasant with strong
breeze from the Eastward. Steering on the wind
We are busy employed tying out.

Nov. 29 Monday sailing for and spent with
Stang from the 10th steering on the
water.

Remains. Pieces of morning hair and skin with the
body from the Eastern Hemisphere of the same
