

seen her & that she was well, she said
she would call on me next time she
came down, as it was late in
the evening you must excuse me as I
shall write often if I should not fill
this sheet and I have not any fault
that you will get it if I could
only write you by mail it would
afford some satisfaction you will see
by my writing that I have not got
my gold pen nor have I ever heard
from it I think I shall go over
this week of some errands and
shall go and see about it so good
night my Dear Husband
this does not express my heart felt
feelings towards you as I could if you was here
but they are the same as when you
left me. Susan Folger is well and talks
about your coming home with Cape Horn
Walnuts for her as you did before hope
this as poor as it is will find its way to
you & in good health from your
affectionate Wife
Sunday eve 10 o'clock
