

it is so short that it hurts the looks of the house
very much & the care comes heavy upon me for fear
it will not suit when it is done your folks seem dispo-
sed to find fault with it particular your Father he
thinks it will not be fit to live in because you have
so much of it built in the winter they have said so much
sometimes that it makes me feel discouraged & I almost
wish that you had waited untill you could have been
at home to have seen to it your self I must own to you
that it does not meet my expectation as to size it dont
make near as much show as ~~Mr~~ Hartons but I say
nothing about it
