Susan shall I hear tomorrow you are well and enjoy

day I have spent since leaving home I want you to
enjoy yourself while I am absent and take all the com
fort you can without me and when I return nothing
but sheer want shall ever induce me to leave you
again. Don't you think it was wisdom in me to go
this voyage. suppose I had stayed at home, how long
would it been before I should have had to go to days
works and I in all probability I shall make more
in three years than I should in all my life at days
works I think you will have to give me credit for
my resolution (wount you) Susan I have been on
shoar to ^{Lahina} but found no letters from you, but found
one from Mr. Howlands informing me of your good
health which has relieved my mind a great deal I
suppose your letters are at Honolulu (whair I am
now bound. as I was some disappointed in not get
ting potatoes yesterday at Lahina I had to go to the
island Owhyhee (the one I left the day before) to the port
of Toeyahyah whair in the course of 6 hours I took on
two if she board 200 bushels, and am now nearly back to Lahina
and by this operation I shall have plenty of time
to write. I suppose by this time you I will be
looking to see how I am progressing as to a cargo.
I have taken 200 sp & 20 Blackfish. one 20 barrel, whale.
& 40 foyes making the 200. I lost my third mate he
was drowned in taking one of the 20 barrel whales
