

and shall be glad to get relieved from those
cares and anxieties which cause me to grow old
fast. but I see you have a great share of care
as the family grows but take good care of your
own dear self and let us once more meet
and enjoy our former lives the best we can
keep up good courage and the time will
soon pass and return your dear Husband
to receive your kind embrace which I
no will be always ready to give me a very
kind reception and may God protect those
children which he has been kind enough
to bless us with I shall write again
before I leave which I think will be
by the last of the tenth of next month
My health is not very good my head
is out of order and at times I feel very
bad they tell me it is the nervous I hope
when I get home to be better but I have
been long enough at sea and now want
to be at home to live free from care I
hope Brother will tend the lights well
and keep them in good order till him
to do as well as his sons has to make
all his employers satisfied and give gen-
eral satisfaction till Sarah I heard from Jacob
with in middle of July and will see her

soon
