

I believe her to be a good Hearted Girl  
for taking so much thought for her Aunt  
Clarra and Bobe tell her she must write  
us a Letter. I am now in Lot 29.30 South  
Long 89.00 W. all well on board have  
seen Whales once since leaving Port.  
had a large Whale missed. O Dear if  
I could have got that fellow he would  
have made me up 800 - but have only 725<sup>th</sup>  
in all. Clarra is now lying on the  
~~sofa~~ <sup>sofa</sup> and says what an inactive  
life this is to lead. She says often if  
she could be where she could have  
a plenty of House work to do she would  
prefer mopping floors. at the way  
never born to be a lot the Lady  
her Health is not first rate she has  
grown spare in flesh and I think you  
would say if you could see her what  
a great change has come over you  
our little girl is full of fun and is lots  
of company for us and we should  
be lost without her. She is a bright  
one I can tell you we tell her  
stories about her friends at home and  
her reply is more Joy. Mamma more  
Joy Papa more more and now she  
is at my Elbow a trying to get my pen
