

Scabreere of New Bedford
 Laying in the Port of Guam
 The ship was set on fire at it was
 supposed that the Cook William Johnson
 done the act on the night of the 15th Oct^r
 he tried to make away with himself
 by cutting his throat and cutting on entering
 in his arm found him in that position
 in his bed in the morning the Capt
 sawed up the cut in his neck and dressed
 his arm and put him in one of the houses
 on the quarter deck and when his wounds
 got better put him in Irons and kept
 him still in the house, on sundays took
 him out of Irons for a few hours.

on the 26 of November Cruising in Bouka
 Bay about 16 Miles from the Land he
 made another attempt to make away with
 himself & succeeded in doing so by
 jumping from the ships taffrail over board
 with the Irons on him the Captain ordered
 a boat to be lowered to save the man
 which was done immediately but before
 the Boat could render him any assistance
 he sunk to rise no more
