

so busy here. This fellow was one of the early birds when the Alaska fields opened up and is quite a character. The Wild West movie plays are of the same type of the life he lives. He is one of the characters in Jack Londons book "The Silver Horde" also in one of Rex Beachs Alaska Stories.

While he has been through the mill in the roughest days he now is a regular man and is very interesting. He hasnt an inch of flesh that hasnt been either cut or shot and yet he lives. Never saw such a specimen in my life. The Mexican cut him up and left him for dead and he got well of that.

Well I must stop. I hope Papa is much better and write me if you need anything. ^{Must get this off in the mail.} Love to all,
Ellison
