

home. I made the nurse take
 Lillia along in her little carriage,
 and Joe took her just as she
 was to the artist. She was in a
 playful mood & would'nt be still.
 He gave her a little bell and she
 began to play with it, I gave her
 my fan which she has in her lap,
 but she would'nt be still anyhow.
 Joe says it is such a bad picture
 he would'nt send it, but I don't
 expect to get one as pretty as
 Lillia. We have company and
 I will conclude, without having
 written about anyone but Lillia
 Joe & Bootee are well.
 Lillia sends a kiss by her picture
 I told her to send a kiss to you all
 by the picture and she kissed it twice
 I want to know if you don't
 think it very much like Beausé-
 gard's picture, taken at Chaptico?

With love to all your
 affectionate daughter
